Subject: Retirement

Hello Steve. Wishing you a wonderful retirement after 32 years of premier service. The Argonaut Mine Tailings Dam has gotten a lot of scrutiny. It took forever to complete the HQ mine activity concurrence package including a 3rd party review by the Army Corps for some geotechnical drilling below the dam. The degree of paranoia is in the extreme red zone. I will be retiring next year after 34 years with EPA. The rare cancer I had in 2003 has come back and I will need more chemotherapy. At the same time I had cardiac triple by-pass surgery in Feb. I feel pretty good right now but I am a mess. Time to enjoy the time I have left. So long, Chemo Sabe.
